

All Covered 
IT SERVICES FROM KONICA MINOLTA

ALL COVERED VULNERABILITY MANAGEMENT SERVICES

Cyber-crime is forcing organizations to implement and develop a security strategy and plan that will detect and remediate security risks in a timely fashion. All Covered's Vulnerability Management Services help organizations identify, remediate, and mitigate security vulnerabilities within their network. The organization can then choose to take measures to avoid the identified risks or deem them as acceptable to the business.

The All Covered Vulnerability Management Services team has the knowledge and experience to help organizations proactively mitigate risk to Information Technology (IT) infrastructure vulnerabilities. Data scans reveal areas of concern and All Covered's team can effectively prioritize security risks and provide stakeholders with an action plan. And All Covered's comprehensive Vulnerability Management Program integrates into the culture of the organizations IT security program offering management a better understanding of the risk-level within their organization.

When compared to an internal IT security audit or other service providers, All Covered provides superior service because we integrate:

- Security Best Practices
- Cross-Client Collaboration
- Create a Sustainable Framework
- Establish Ongoing Governance
- Define Process and Procedures
- Trend Reports

Vulnerability scans provide complex data results that can overwhelm an organization. All Covered can easily make sense of reports and develop strategies and tactics that can also integrate into other security practices, such as security monitoring, penetration tests, and compliance.

From completely managing a vulnerability management program to doing a health check to gauge the risk levels of an environment, All Covered can help.

TAKING IT ONE STEP FURTHER...

All Covered also offers managed services that are designed to augment or fully support your security program. All Covered promotes creativity and innovation when it comes to providing solutions that support your goals and your team. Fulfill your security initiatives with strategic security services provided by All Covered, but also take your security program further by taking advantage of following services tailored and designed for individual organizations:

- Security Monitoring Health Check
- Active Defense
- Penetration Testing
- Compliance Assessment
- Security Awareness Training
- Security Strategy Assessment
- SANS 20 Gap Analysis
