IT SERVICES FROM KONICA MINOLTA / FINANCE

ALL COVERED FINANCE SERVICE BUREAU IT – CLOUD

The All Covered Finance Service Bureau IT – Cloud provides a highly available, secure and compliance driven hosted infrastructure specifically designed for the financial industry. Rather than purchasing on-site servers, costly data center space and additional network equipment, our Service Bureau IT – Cloud removes your infrastructure management challenges, decreases capital expenses and allows your institution to simplify IT Compliance, cybersecurity, and oversight requirements allowing more focus on servicing your customers.

In partnering with All Covered Finance, you don't have to take on your cloud migration alone. We help assess your current environment and collaboratively build a cloud strategy and solutions that are scalable and optimized for your institution's needs now and into the future. As a true technology partner, your institution will be assigned a dedicated project manager and technology team solely focused on financial institutions to proactively manage your account and assist every step of the way.

WHY THE ALL COVERED FINANCE SERVICE BUREAU CLOUD?

The Finance Practice Help Desk: Leverage a dedicated team of All Covered Finance IT resources to support your institution and provide extensive financial application and network support for your end users.

Flexible Pricing Model: Only pay for the resources you need, easily scale as your institution's needs change.

Built-in Disaster Recovery and Business Continuity: Leverage our Enterprise-grade architecture. SOC2 facilities with a 99.995% uptime SLA. Redundant power, connectivity and security.

IT Compliance and Regulatory Guidance: Collaborate with our compliance team to assist with your Information Security program, exam preparation and IT audits.

Enhanced Security and Managed IT Services: The Service Bureau IT – Cloud includes patching, end-point protection, SIEM and vulnerability remediation in addition to a 24x7x365 managed cloud environment.

Automatic Backups: Data backup, reporting, testing and retention policies based on regulatory best practices and compliance needs.

Remote Access: Access to your institutions resources from anywhere, anytime. Easily grant access to remote employees and vendors when needed regardless of their physical location.

Op-Ex vs. Cap-Ex: Improve cash flow by eliminating the need for capital expenditures associated with new hardware.

COLOCATION AVAILABILITY

Your move to the cloud is not an all or nothing decision. Have existing physical servers, VoIP hardware, or other appliances? With the Service Bureau IT – Cloud, you can move the necessary servers to our cloud infrastructure and collocate the servers and devices you still need. With your move to the cloud, you gain access to our SSAE-16 / SOC2 Type II audited data centers, enterprise security, compliance controls and access to a world-class technology staff dedicated to supporting our financial clients.
