# SUPPORT HYBRID WORKING WITH MODERN INTRANETS

## THE NEW FLEXIBILITY IN WORKING

The future workplace is intelligent; where people, information and technologies connect seamlessly. But managing these complex connections effectively hasn't always been easy.

**27%**

find it hard to unplug from the different communication channels\*\*

**16%**

have frequent difficulties with collaboration and communication\*\*

**98%**

feel disconnected from their peers\*

**66%**

increased spend on communication and collaboration technologies\*

**97%**

of employees would like to continue working remotely post-pandemic\*\*

## IT'S TIME TO BREAK UP SILOS & ALLOW COLLABORATION WHEREVER YOU ARE

Hybrid work calls for tools that amplify a company's capabilities to offer its employees such a way of work – and enable collaboration from everywhere.

## A FULLY MANAGED INTRANET SOLUTION FOR ANY COMPANY

Introducing Workplace Go, your next generation collaboration tool. Designed to meet the needs of the intelligent connected workplace, whatever the size of your business and in any industry, Workplace Go is an intranet-as-a-service interface based on Microsoft 365 and simplifies communication, drives efficiencies and improves how you work.

Companies that invested in an intranet technology in 2020 were hoping to:

**68%**

enhance employee experience\*

**16%**

improve productivity\*

**98%**

foster a sense of connectedness\*

WORK BETTER, WORK SMARTER,  
**Workplace Go**
